SELF-PROTECTIVE POCKET POUCH

# Kaelis

For a Safer Tomorrow

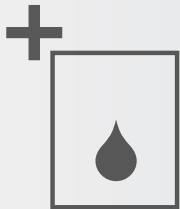

Kaelis is aware that once the travel industry starts operating again, new rules will apply in order to assure crew and travellers' safety. We have designed the Self-Protective Pocket Pouch (SP-3) including the most important Personal Protective Equipment (PPE) including a mask, gloves, hand sanitiser and alcohol wipes, to face these new rules.

The pouch can be customised in shape, colour and materials in order to fit any company's identity and can include an information leaflet with information about how to prevent the spread of the virus. It is also a great time to make changes to move towards a sustainable future, so eco-friendly, biodegradable and washable pouches are available.
